A SWEET . . . VERY EARLY CORN

SPANCROSS 13.4 Hybrid [Yellow] Sweet Corn is the best very early Sweet Corn I have ever eaten. It is not so sweet and tender as AUNT MARY'S and the ears are not so large, but my records show that SPANCROSS is ready for the dining room table usually about **3 weeks earlier** than AUNT MARYS. I am selling it instead of EARLY PEARL on account of its earliness and its high quality.
